MESSAGE

from the Board of Directors

Primary education is a critical foundation for a child's future. They acquire knowledge through a dynamic learning process integrating research, inquiry and collaboration as opposed to traditional method of memorization and rote learning. Royal English Academy has come into existence with the vision of providing modern quality education to our children. It is our aim to provide our students global standards of education.

We inculcate to provide education within the reach of all and bring out the potentiality of our rural society, along with modern education. We aim to nurture our children with happy environment filled with values and courage to foster the feeling of brotherhood among all while constantly being groomed to pass out as men and women competent to bear responsibility in all walks of life. We invest an equal amount of time in our teachers who in turn must shape our students future under productive and positive work environment.

It is in infancy stage, therefore a lot of attention and support is required from the parents students and the school staff. Moreover the parents are the most strengthening power in molding the future of our children. Their consistent support empowers us to do more and more. We pay our gratitude to them for their faith in us.

MESSAGE

from the desk of the
Principal

To me the very purpose of quality education is character building, children are malleable who can be shaped into persons of excellence by their teacher. As responsible teachers, we have to be exemplary to our students if we want them to be assets to the society and the nation. I feel it is important for every child to enjoy a sense of achievement.

An institution should be a living place that shapes children's lives and builds their character. Therefore to assess the schools performance only by its high academic cores is not sufficient, it is equally important for a school to be a place for children with a love for learning and sound value system. To achieve these objects we need to work jointly with the parents of our pupils to create an atmosphere where the students may grow with a true spirit of learn and respect for all, and courage to face the challenges of life.

I take this opportunity to welcome and thank all the parents who have respond their faith in our school. We try our best to maintain the highest quality of education and provide wonderful environment for studies.

Let us commit ourselves to pave the path for a promising generation.

It gives me immense pleasure to learn that Royal English Academy Baraigram, Karimganj continues to remain ceaselessly engaged in spreading the light of education in the remotest area of the district.

I believe that there can not be a more nobler work than to spread literacy and impart quality education to the most deprived segment of the society. The progress of any society & the nation singularly depends on the degree & quality of education made available to its citizens. Endeavour of Royal English Academy to impart quality education to the children in the area will go a long way in improving the standard of life of the citizens and in the nation building. Education is a magic wand that can help anyone successfully negotiate the challenges of life, to build a new world and to re-discover himself.

The crusading zeal of your institution to engage in the pursuit of knowledge and spread the fragrance of education in one of the remotest area of the country is highly commendable & appreciable. I wish your institute makes progress by leaps and bounds and continues to nurture students with same zeal & perseverance.

With *best wishes.*

Yours *Sincerely.*

MESSAGE

It gives me immense pleasure to congratulate Royal English Academy, a pioneer English Medium School in the greater Baraigram locality on their continuous efforts in spreading quality education and other co curricular aspects of education in a remote corner of the state which will definitely make a mark in the sphere of education in the state.

Royal English Academy is passionate towards its motto. I have visited the institution numerous times including a Blood Donation cum Awareness Camp. The school is engaged with various social events and activities. I strongly feel that education is a blend of academic excellence and creativity and Royal English Academy encourage and empower the students to grow into strong, competitive, reflective and humble individuals and contribute to the building of a healthy society. I believe that the institution is prepared to make a mark in all spheres of academics and society.

I convey my best wishes to the management, teachers and all the students for a brighter future and hope the institution will reach greater heights in its future journey.

With best wishes,

MESSAGE

I am happy to learn that the young, energetic, and educated people of the Greater Baraigram have established an English Medium School/Academy. Our area is educationally backward, scientifically marginal, politically insignificant, and economically poor. Thus, urgent solutions are needed for the current needs, and these solutions will come only through education. Today, it is axiomatic that developed countries emphasize education, science, and communication. Development is only conceivable in a literate environment. Royal English Academy is a vision-driven school committed to meeting the educational needs of rural students of the greater Baraigram locality in the changing time and will play a significant role in this area. This Academy will educate students and make them creative to manage the market and survive in this competitive world. Royal English Academy has already developed a robust infrastructural base, comprehensive curriculum, and technology-driven value-based delivery mechanism. There is a reliable connection between classroom learning and outdoor experiences, between parental role and that of the school, and between learning for now and learning for life. There are many shortcomings in our area, its not possible to change the whole system overnight. The contemporary western proverb is, "We cannot direct the wind, but we can adjust the sails." The world is changing, and proper, timely education is a key shaper of emergent possibilities. In a country like India, the government cannot afford all education expenditures for all citizens. Non-profit organizations (NGOs) must play a crucial and constructive role. I hope Royal English Academy will fulfill the region's needs, as the Academy is run by talented and energetic people as far as I know. Finally, my advice to all the students is, "The best Emaan 'faith' is the one that is decorated with knowledge. The best knowledge is the one that is decorated with actions and good deeds. The best action is the one decorated with humbleness and humility. To be decorated with all of the above, one must have patience coupled with manners (manners of your knowledge)."

I wish the Academy success in all aspects.

Thanking you,

MESSAGE

I am very pleased to learn that. Royal English Academy, a budding English Medium School at Baraigram. Karimganj is embarking on a new academic session this year. In consonance of its motto. "One Step Towards wisdom", the institute has been striving hard, since its inception, to disseminate knowledge and wisdom in the greater Baraigram area of the border district of Karimganj. Assam.

Rabindranath Tagore, who started an open-air school at Shantiniketan in 1901, which later went on to become a famous university, believed that holistic learning could only be obtained in the midst of nature under the close supervision of a parent-like Guru. I believe that Royal English Academy, Baraigram has been imparting quality education so as to enrich and develop the budding human resources of this locality, though not in the midst of nature. But in a well-developed and organised school infrastructure, creating an encouraging, competitive, co-operative, and friendly academic ambience.

As far as the vision of the National Education Policy (NEP), 2020 is concerned, the curriculum and pedagogy of an academic institution play a very important role in instilling in the students a deep-rooted pride in being a citizen of this country as well as in developing knowledge, skills values, and dispositions that support in becoming a truly global citizen with responsible commitment to peaceful human coexistence and global well-being. In view of the strong commitment of Royal English Academy to the cause of education. I am of the conviction that this nascent institute is engaged to translate the vision of the NEP-2020 into action through its curricular and co-curricular activities for all-round development of the students.

I extend my best wishes to the management, teachers and all the students as a whole the entire Royal English Academy family for a bright future and hope the institute will reach greater heights in its journey.

It gives me immense pleasure to mention that REA is one of the pioneer with a mission of quality education. This school strives for excellence in all spheres of learners life. Early childhood education should be based on theories of child development, my own belief is that while knowledge of child development is necessary in addition to a child's intellectual and emotional development, one should also pay close attention to sociological and cultural factors. At Royal English Academy I have witnessed that created a healthy environment for not only sociological and cultural interactions but also for psychological and logical interaction along with giving the students to the opportunity to explore their uniqueness. During visit I have interacted with the students and was amazed with their oratory skills and presentation and I am sure the institution is leaving no stone unturned to achieve its goal.

I wish all the success for the school to achieve its vision and mission for excellence in quality education for the learners.

I am reminded of that Islam placed a high value on education and as the faith spread among diverse peoples, education become an important channel through which to create a universal and cohesive social order. I am very much glad to know that Royal English Academy, Baraigram, Karimganj has adopted the path of spiritual as well as moral values while providing modern education. Alhumdullillah! they have created a prayer hall for the students and teachers of the school, I pray to Allah SWT that the school may gain the confidence of the guardians and touch a new height in which the teacher and the students offer prayer to the divine to protect them, to work together with great energy, to acquire knowledge and goodness, to develop good character. They are grooming the children of the generation, equipping him/her to face the challenges and shoulder the responsibilities that lie ahead and I pray the institution reach new heights and shine brightly, Ameen.

NEED & IMPORTANCE OF AN ENGLISH MEDIUM SCHOOL

Learning at the young age gives you enough time to learn, falter and correct your mistakes like the mother tongue. Dear parents, please don't send your child to English Medium just for the sake of trend but find the reason why your child need to study in a English Medium School.

- It is the language of science and it is the language the world speak.
- Lack of fluency in English can be a huge hindrance in the future.
- It is the language of Computers.
- It is the language of business across the globe.
- In English Medium School Children are encouraged to communicate in English both with teachers and friends enhancing their communication skills.

When children think and at the same time speak their knowledge in English, ofcourse widens, benefits career scope in future which- ever stream your child wants to pursue. The modern form of education is incomplete without good knowledge of English. No one is saying English is a knowledge, it is just a language but you can understand the importance of this language with the changes in the modern era.

INFRASTRUCTURE

Well trained teachers have been provided who have experience with professional diploma and experience in teaching.

Well furnished classrooms for kids and smart classroom for students.

Hostel facility for those who requires.

Transportation facility for the children who commute to school from home everyday.
